IN THE CLAIMS:

Please amend the claims as follows:

1. (Currently Amended) A sandal sock, comprising:

a first covering shaped to fit on a second covering, with the first covering attachable to the second covering in such a manner that the first covering is removable, and with the second covering attachable to <u>a</u> the sandal <u>or shoe</u> in a manner more secure than the first covering is attachable to the second covering;

wherein when a person wears the sandal <u>or shoe</u> with the first covering and the second covering attached, at least a portion of the first covering is disposed between the sandal <u>or shoe</u> and the person's foot.

- 2. (Original) The sandal sock as in claim 1, wherein the first covering and the second covering are attachable via one or more hook-and-loop type fasteners.
- 3. (Original) The sandal sock as in claim 2, further comprising the hook part of the hook-and-loop type fasteners, wherein the second covering has the loop part of the hook-and-loop type fasteners.

- 4. (Original) The sandal sock as in claim 2, further comprising the loop part of the hook-and-loop type fasteners, wherein the second covering has the hook part of the hook-and-loop type fasteners.
- 5. (Original) The sandal sock as in claim 1, wherein the first covering is at least partially made of cotton, polyester, nylon, silk, or some combination thereof.
- 6. (Original) The sandal sock as in claim 1, wherein the first covering is washable.
- 7. (Original) The sandal sock as in claim 1, wherein the first covering is impregnated with a deodorant, medication, or both deodorant and medication.
 - 8. (Original) The sandal sock as in claim 1, wherein the first covering is padded.
- 9. (Original) The sandal sock as in claim 1, further comprising the second covering.
- 10. (Currently Amended) The sandal sock as in claim 9, further comprising an adhesive on one side of the second covering, whereby the second covering is attachable to the sandal <u>or shoe</u> using the adhesive.

- 11. (Original) The sandal sock as in claim 10, wherein the adhesive is permanent or semi-permanent.
- 12. (Currently Amended) The sandal sock as in claim 10, further comprising a cover on the side of the second covering with the adhesive that can be peeled off before attaching the second covering to the sandal or shoe.
- 13. (Currently Amended) The sandal sock as in claim 9, wherein the first covering and the second covering each have a slit for a thong on the sandal <u>or shoe</u> that fits between the person's toes.
- 14. (Currently Amended) The sandal sock as in claim 9, wherein the first covering and the second covering are shaped to fit a generic shape of sandal <u>or shoe</u>.
- 15. (Currently Amended) The sandal sock as in claim 9, wherein the first covering and the second covering are shaped to fit a specific brand and design of sandal or shoe.
 - 16. (Currently Amended) A sandal sock, comprising:

a covering shaped to fit on a sandal <u>or shoe</u>, with the covering attachable to the sandal or shoe in such a manner that the covering is removable;

wherein when a person wears the sandal <u>or shoe</u> with the covering attached, at least a portion of the covering is disposed between the sandal <u>or shoe</u> and the person's foot.

- 17. (Original) The sandal sock as in claim 16, wherein the covering is attachable via one or more hook-and-loop type fasteners.
- 18. (Currently Amended) The sandal sock as in claim 17, further comprising the hook part of the hook-and-loop type fasteners, wherein the sandal <u>or shoe</u> has the loop part of the hook-and-loop type fasteners.
- 19. (Currently Amended) The sandal sock as in claim 17, further comprising the loop part of the hook-and-loop type fasteners, wherein the sandal <u>or shoe</u> has the hook part of the hook-and-loop type fasteners.
- 20. (Original) The sandal sock as in claim 16, wherein the covering is at least partially made of cotton, polyester, nylon, silk, or some combination thereof.
 - 21. (Original) The sandal sock as in claim 16, wherein the covering is washable.
- 23. (Original) The sandal sock as in claim 16, wherein the covering is impregnated with a deodorant, medication, or both deodorant and medication.

- 24. (Original) The sandal sock as in claim 16, wherein the covering is padded.
- 25. (Currently Amended) The sandal sock as in claim 16, wherein the covering has a slit for a thong on the sandal <u>or shoe</u> that fits between the person's toes.
- 26. (Currently Amended) The sandal sock as in claim 16, wherein the covering is shaped to fit a generic shape of sandal or shoe.
- 27. (Currently Amended) The sandal sock as in claim 16, wherein the covering is shaped to fit a specific brand and design of sandal or shoe.
 - 28. (Currently Amended) A sandal <u>or shoe</u>, comprising a base;

one or more straps, thongs, ties, or some combination thereof dispose to secure the base to a person's foot; and

an attachment for a covering shaped to fit on the a sandal or shoe, with the covering attachable to the sandal or shoe in such a manner that the covering is removable;

wherein when a person wears the sandal <u>or shoe</u> with the covering attached, at least a portion of the covering is disposed between the sandal <u>or shoe</u> and the person's foot.

- 29. (Currently Amended) The sandal <u>or shoe</u> as in claim 28, wherein the covering is attachable via one or more hook-and-loop type fasteners.
- 30. (Currently Amended) The sandal <u>or shoe</u> as in claim 29, further comprising the hook part of the hook-and-loop type fasteners, wherein the covering has the loop part of the hook-and-loop type fasteners.
- 31. (Currently Amended) The sandal <u>or shoe</u> as in claim 29, further comprising the loop part of the hook-and-loop type fasteners, wherein the covering has the hook part of the hook-and-loop type fasteners.
- 32. (Currently Amended) A method of wearing a sandal <u>or shoe</u>, comprising the steps of:

attaching a first covering and a second covering to the sandal <u>or shoe</u>, with the first covering attachable to the second covering in such a manner that the first covering is removable, and with the second covering attachable to the sandal <u>or shoe</u> in a manner more secure than the first covering is attachable to the second covering; and

putting on the sandal or shoe;

wherein when a person wears the sandal <u>or shoe</u> with the first covering and the second covering attached, at least a portion of the first covering is disposed between the sandal <u>or shoe</u> and the person's foot.

- 33. (Original) The method as in claim 32, wherein the first covering and the second covering are attachable via one or more hook-and-loop type fasteners.
- 34. (Currently Amended) The method as in claim 32, wherein attaching the second covering to the sandal <u>or shoe</u> further comprises attaching the second covering using an adhesive on one side of the second covering.
- 35. (Original) The method as in claim 34, wherein the adhesive is permanent or semi-permanent.
- 36. (Original) The method as in claim 34, wherein attaching the second covering using the adhesive further comprises first peeling off a cover from the side of the second covering with the adhesive.
- 37. (Currently Amended) A method of wearing a sandal <u>or shoe</u>, comprising the steps of:

attaching a covering to the sandal <u>or shoe</u>, with the covering attachable to the sandal <u>or shoe</u> in such a manner that the covering is removable; and

putting on the sandal or shoe;

wherein when a person wears the sandal <u>or shoe</u> with the covering attached, at least a portion of the covering is disposed between the sandal <u>or shoe</u> and the person's foot.

38. (Original) The method as in claim 37, wherein the covering is attachable via one or more hook-and-loop type fasteners.
